

DEGRADABLE THERMOPLASTIC POLYMER COMPOSITION

Patent number: JP4335060
Publication date: 1992-11-24
Inventor: AJIOKA MASANOBU; others: 03
Applicant: MITSUI TOATSU CHEM INC
Classification:
- **international:** C08L67/04
- **European:**
Application number: JP19910105673 19910510
Priority number(s):

Abstract of JP4335060

PURPOSE: To obtain a thermoplastic polymer composition which can be degraded under natural environmental conditions and can be used as a packaging material or a medical material.

CONSTITUTION: A degradable thermoplastic polymer composition mainly consisting of polylactic acid, a copolymer of lactic acid with a hydroxycarboxylic acid or a mixture of polylactic acid with polyhydroxycarboxylic acid each of which is plasticized and is flexible.
